Strategically located in the Industrial City of Abu Dhabi, some 35 kilometers away from the heart of the city of Abu Dhabi, Emirates Steel is the only integrated steel plant in the UAE, utilizing the latest rolling mill technology to produce rebar, wire rod and heavy sections. Established in 1998, Emirates Steel grew in a relatively short period of time from a simple re-roller of imported steel billets to a complex integrated manufacturing plant, using modern solutions to tackle traditional industrial problems to generate value for its various stakeholders. In 2012, the Company began producing at a capacity of 3.5 million MTPA, following two expansions and the investment of AED 11 billion (US$ 3 billion).
Way to Emirates Steel:
- Stay on the E30 till Delma Mall is on your right.
- Take the first right after Delma Mall before the third bridge.
- Access ICAD 1 and keep going straight.
- After crossing five roundabouts you will see Emirates Steel right in front of you.
Way to Emirates Steel Phase 2:
- Stay on the E30 till Delma Mall is on your right.
- Take the first right after Delma Mall before the third bridge.
- Access ICAD 1 and keep going straight.
- After crossing five roundabouts you will see Emirates Steel Phase 1 right in front of you.
- Go right and after you cross three roundabouts go left, then left and all the way till you reach the Phase 2 gate.

Alternatively:
- Go right before the second bridge.
- Complete six roundabouts before you go left.
- When you reach the first roundabout take right then follow the road till you reach the Phase 2 gate.
